

ANGEL'S FRIENDLY COACHING

House Blessing Prayer

FOR WHEN YOU LIGHT YOUR CANDLE

To the Divine Spirit (or Universal Energy, Supreme One etc), in lighting this candle we summon love, harmony, peace, and prosperity into our home. May we be blessed with good health, happiness, success, and abundance. May this home be a sacred dwelling for us and our children. May those who visit us feel peace and love. We decree that this home is now shielded from harm, illness, or misfortune. Thank you for bringing divine light, love and energy into our hearts, rooms, and endeavors. With tremendous gratitude, we thank you. In full faith, so be it and so it is!"

Wishing you much happiness, health, love and prosperity!

HERE ARE SOME TIPS FOR YOU:

Physical health and spirituality go hand in hand. Being the color of nature, green stimulates growth; both physical and financial. Light five yellow candles every day on your kitchen table for good health. Meditating with light green candles not only has a positive effect on your physical health but will help solve money-related issues.

This may sound impossible but candles can do wonders when it comes to easing up the workload. Not literally, but it will help relieve the emotional burden and you will feel relaxed. Excess of wood energy in the home can make you feel excessively overburdened. Select a nice place on the left side of your home and place nine red candles in the center. Light them every morning and see how light you feel. The placement of the candles, selection of the place, the color of the candle and its scent, all play a key role in channeling the energy.

A 7-day candle is an unscented candle in white or any other color (depending on the purpose) in a cylindrical glass container with saints and symbols on the glass. This candle is used as part of religious rituals, meditation, and spiritual routines. To enhance the benefits you can use crystals, herbs and essential oils. Make an intention and light the candle. You can let the candle burn as long as you want; either it extinguishes itself or you can extinguish it on the fulfillment of your desire.

A multi-colored spiritual candle has layers of different colored wax. Depending on desire and purpose you can use 1-7 colors of wax. A few of its unlimited uses include: work on different desires in one go, focus on seven different prayers and meditate on seven different chakras to open blocked chakras. It is not necessary to work with seven different colors, depending on the requirement you can put as little as one to seven colors. For money related issues, for example, you can put in just green and golden colors, both of which are the colors for money.

All candles in you receive are blessed with good energy and positive intentions for you and your home.

Much Love

Angelique
